Mint of the United States at Philadelphia,
MELTING AND REFINING DEPARTMENT,

Philadelphia, 13. May, 1882.

Sir,

I regret to report again that Mr F. K. Ward is again supplying us with Anthracite different from that agreed upon, and quite inferior for our purpose.

Very respectfully

Hon. A. London Snowden,
Superintendent

RG104 E-1 Box 126 Feb-June 1882

Mem. for the Supt.

If Mr. Ward's deliveries of Coal are to be terminated, it would be well — from a legal point of view, & to avoid a possible legal quibble — to declare the Contract broken (as suggested by the Director in his letter of Apl 7/82) instead of "cancelled" or "annulled".

In preparing future contracts for Supplies, I shall insert an additional clause, to prevent any possible misconstruction, & to certainly keep (what I intended) both ends of the Coper, in the Supt's hands.
